Best value wholesale bakery in Sydney

01 — BRAND POSITIONING

"Sydney cafés and distributors who want quality baked goods without paying premium prices — without compromising on what their customers taste."

WHO WE ARE

A wholesale bakery that makes artisan-quality product accessible — not cheap, but priced so cafés actually make money.

WHO WE SERVE

Café owners and distributors across Sydney who need consistent, reliable product without the premium-supplier markup.

WHAT WE OWN

Best value. Not cheapest. Value = quality you can sell, priced so you profit.

WHAT WE AVOID

Never use the word "premium." It invites comparisons we can't win. Show quality through product, photography, and reliability.

02 — BRAND TAGLINE

Baked for your business.

Alternative: "Quality you can sell. Prices that make sense."

03 — COLOUR PALETTE

All colours sampled directly from the logo files.

	Chocolate Brown	#46280A	Logo hat, 'YUM YUM' wordmark, primary text on light backgrounds
	Logo Gold	#B47832	'DELIGHT' wordmark, accents, CTAs, category headers, eyebrows
	Parchment	#F5F0E8	Logo background, page background, wholesale sheets
	Cream	#FAF3E0	Text on dark backgrounds, light fill areas
	Midnight Crust	#1A1208	Dark hero backgrounds, reversed logo usage
	Warm Brown	#6B3F1A	Secondary depth, borders, dividers on light backgrounds

■ Previous guidelines listed #C49A3C as the gold. That was incorrect. The actual logo gold is #B47832 — warmer and more muted. Use #B47832 everywhere.

04 — TYPOGRAPHY

The logo uses a condensed bold serif for 'YUM YUM' and a lighter spaced serif for 'DELIGHT'. The closest Google Fonts match is Playfair Display Bold (condensed feel at large sizes). For web body copy, pair with Inter.

05 — LOGO SYSTEM

Three logo files are in brand_assets/Logo's/. Use them as follows:

FILE	VARIANT	USE WHEN
Side_Logo.png	Horizontal	Nav bar, email header, letterhead — any wide/narrow space on light bg
Reg_logo.png	Stacked	Hero sections, footers, square placements on light/parchment bg
Only_Logo.png	Icon only	Favicon, app icon, packaging stamp, social avatar

Logo colour breakdown:

Hat + 'YUM YUM' wordmark	Chocolate Brown #46280A
'DELIGHT' wordmark	Logo Gold #B47832

Hat interior highlight	Parchment #F5F0E8
Logo background	Parchment #F5F0E8

06 — LOGO RULES

- Two background versions required. Current files are light-background only (Parchment). A dark-background version (Cream/Gold on Midnight Crust) is still needed for hero sections.
- Minimum size: legible at 40px height. At small sizes, drop to Only_Logo.png (icon only).
- No gradients. Must print cleanly on a price list, stamp on packaging, display on a website.
- Clear space = logo height on all four sides. Never crowd it.
- Never recolour the logo. Chocolate Brown and Logo Gold are fixed — do not substitute with other brand colours.

07 — TONE OF VOICE

Confident

State things directly. "We deliver across Sydney." Not "We aim to deliver across most of Sydney."

No-fluff

Cut any sentence that doesn't move the buyer forward. No "passionate about baking" filler.

Commercially sharp

"Price that works for your margins" beats "affordable artisan baking."

SAY THIS

"Order by email, delivered next morning."

"Croissants from \$0.83 each — box of 24."

NEVER SAY THIS

"We are passionate about artisan baking."

"Premium quality at affordable prices."

"Your customers won't know the price difference.
They'll taste the quality."

"We strive to deliver the finest baked goods."

09 — WHAT MAKES THIS BRAND DEFENSIBLE

- A** The dark + gold visual system is rare in Sydney wholesale bakery. Most competitors default to white + green or white + brown. Standing out is non-negotiable at B2B level.
- B** "Best value" positioning is concrete — it can be proved on the price list. That makes it credible, unlike "premium quality" which every competitor also claims.
- C** The serif wordmark (YUM YUM) gives a quality signal that justifies the price — without using the word "premium." The brand looks more expensive than it is. That is the goal.
